ARYN'S LIVING ROOM LAYOUT 10 X 14 RUG

A rug should anchor your seating arrangement. Our preference for a living room rug is to have the sofa, chairs, and side tables completely on the rug if space allows. This will make your space feel larger and more open.

ARYN'S BEDROOM LAYOUT 9 X 12 RUG W/ KING BED

Depending on the size of the rug, bed, and your room, place the rug under the front two-thirds of your bed. We prefer to have the rug stop approximately 6 in - 12 in from the nightstand. We recommend at least 3 ft of exposed rug on either side of the bed.

DO'S & DON'TS OF STYLING DINING ROOM RUGS

Choose a rug that extends at least 2.5 ft - 3 ft on each side of your table, so there's room to pull out chairs.

If your dining table is expandable, choose a rug that will still fit beneath the table when it's extended.
